When it comes to digital publishing, you have to consider a lot of reader trends.

You have to be present on the platforms and devices which your readers are using for instance social media and mobile devices.

Readers today look for more interactivity that is beyond plain text and pictures.

Below are some factors you need to expect from your digital publishing platform

1. Your publishing platform should be cost-effective. You do not have to burn a hole in your pocket to purchase it.

2. It should be user-friendly. You do not need to have any special skills to use your digital publishing platform.

3. Know who your readers are. You should track, collect, and assess user behavior and demographics.
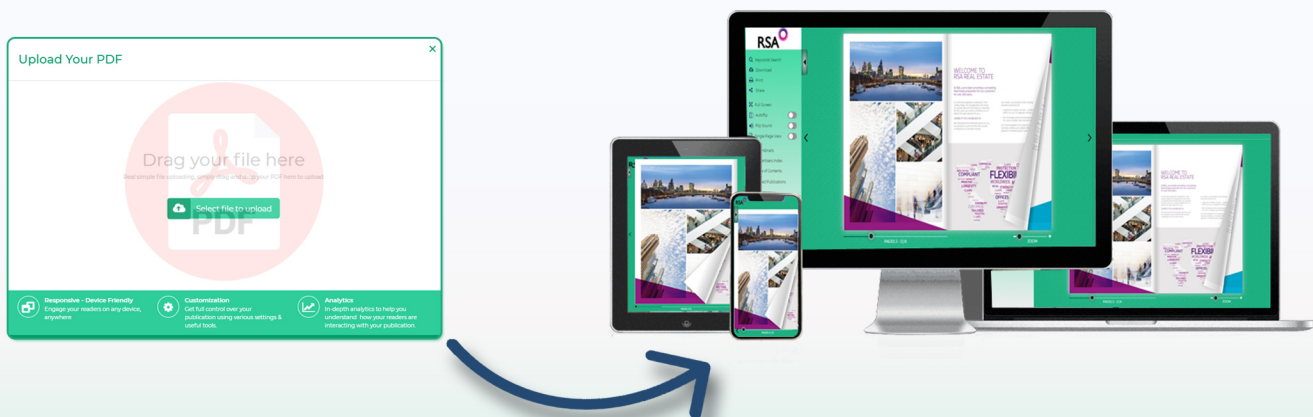

4. You should embed registration forms and conduct live online contests right in your flipbook.

5. Your publishing platform should embed videos, audios, pop-ups, animations, links, and more in your flipbook.
